Dear Nair,

I am Carlos Ma, a student that you taught in the previous semester of ENGG 2030(signal and system). You may remember me as you call my name almost every lesson. I am writing this E-mail to you is that i want to express my appreciation and honor to be your student. You are a very excellent teacher as you really teach us with your heart. You really want us to learn knowledge. Although the subject is very difficult, you teach us with your enthusiasm. At the beginning of the first semester, i was in charged the thousand people feast of 60 anniversary of Chung Chi College. Thus, i was very busy and didn't have time to study. Therefore, i totally could not catch up with the syllabus. However, you didn't abandon me and taught me again. It is very touching and warmhearted. It is my honor to have a chance to be your student. You are the best teacher that i have met in CUHK. Thanks for your teaching. Hope you can keep this enthusiasm and teach more and more good students. Thanks a lot.

Best Regard

Carlos Ma
