Title / Author	Cited by	Year
<u>Energy-efficient scheduling of packet transmissions over wireless networks</u> A El Gamal, C Nair, B Prabhakar, E Uysal-Biyikoglu, S Zahedi INFOCOM 2002. Twenty-First Annual Joint Conference of the IEEE Computer and ...	<u>202</u>	2002
<u>An outer bound to the capacity region ofthe broadcast channel</u> C Nair, A El Gamal Information Theory, IEEE Transactions on 53 (1), 350-355	<u>77</u>	2007
<u>Simple deterministic approximation algorithms for counting matchings</u> M Bayati, D Gamarnik, D Katz, C Nair, P Tetali ANNUAL ACM SYMPOSIUM ON THEORY OF COMPUTING 39, 122	<u>44</u>	2007
<u>The capacity region of a class of three-receiver broadcast channels with degraded message sets</u> C Nair, A El Gamal Information Theory, IEEE Transactions on 55 (10), 4479-4493	<u>43</u>	2009
<u>Proofs of the Parisi and Coppersmith-Sorkin random assignment conjectures</u> C Nair, B Prabhakar, M Sharma Random Structures & Algorithms 27 (4), 413-444	<u>35</u>	2005
<u>Proofs of the Parisi and Coppersmith-Sorkin conjectures for the finite random assignment problem</u> C Nair, B Prabhakar, M Sharma Foundations of Computer Science, 2003. Proceedings. 44th Annual IEEE ...	<u>22</u>	2003
<u>A rigorous proof of the cavity method for counting matchings</u> M Bayati, C Nair Arxiv preprint cond-mat/0607290	<u>20</u>	2006
<u>On the inner and outer bounds for 2-receiver discrete memoryless broadcast channels</u> C Nair, V Wang Zizhou Information Theory and Applications Workshop, 2008, 226-229	<u>15</u>	2008
<u>An outer bound for 2-receiver discrete memoryless broadcast channels</u> C Nair Arxiv preprint arXiv:0807.3593	<u>14</u>	2008
<u>Capacity regions of two new classes of two-receiver broadcast channels</u> C Nair Information Theory, IEEE Transactions on 56 (9), 4207-4214	<u>13</u>	2010
<u>A proof of the conjecture due to Parisi for the finite random assignment problem</u> C Nair, B Prabhakar, M Sharma Personal homepage 144	<u>12</u>	2003
<u>Proof of the local REM conjecture for number partitioning. I: Constant energy scales</u> C Borgs, J Chayes, S Merterns, C Nair Random Structures & Algorithms 34 (2), 217-240	<u>11</u>	∗ 2009
<u>Asymptotic filtering and entropy rate of a hidden Markov process in the rare transitions</u>		

[regime](#) C Nair, E Ordentlich, T Weissman Information Theory, 2005. ISIT 2005. Proceedings. International Symposium on ...	[11](#)	2005
[Comments on "broadcast channels with arbitrarily correlated sources"](#) G Kramer, C Nair Information Theory, 2009. ISIT 2009. IEEE International Symposium on, 2777-2779	[10](#)	2009
[Packet dropping mechanisms: some examples and analysis](#) R Pan, C Nair, B Yang, B Prabhakar PROCEEDINGS OF THE ANNUAL ALLERTON CONFERENCE ON COMMUNICATION CONTROL AND ...	[10](#)	2001
[A note on outer bounds for broadcast channel](#) C Nair Arxiv preprint arXiv:1101.0640	[9](#)	2011
[A Chicken & Egg Network Coding Problem](#) NJA Harvey, R Kleinberg, C Nair, Y Wu Information Theory, 2007. ISIT 2007. IEEE International Symposium on, 131-135	[9](#)	2007
[The correlation decay (CD) tree and strong spatial mixing in multi-spin systems](#) C Nair, P Tetali Arxiv preprint math/0701494	[9](#)	2007
[Towards the resolution of Coppersmith-Sorkin conjectures](#) C Nair PROCEEDINGS OF THE ANNUAL ALLERTON CONFERENCE ON COMMUNICATION CONTROL AND ...	[9](#)	2002
[An information inequality for the BSSC broadcast channel](#) V Jog, C Nair Information Theory and Applications Workshop (ITA), 2010, 1-8	[7](#)	2010
[Capacity regions of two new classes of 2-receiver broadcast channels](#) C Nair Information Theory, 2009. ISIT 2009. IEEE International Symposium on, 1839-1843	[7](#)	2009
[Conservative network coding](#) NJA Harvey, K Jain, LC Lau, C Nair, Y Wu Proc. 44th Annual Allerton Conf. on Comm., Contr., and Computing	[7](#)	2006
[On entropy for mixtures of discrete and continuous variables](#) C Nair, B Prabhakar, D Shah Arxiv preprint cs/0607075	[7](#)	2006
[The capacity region of the three receiver less noisy broadcast channel](#) C Nair, ZV Wang Information Theory, IEEE Transactions on 57 (7), 4058-4062	[5](#)	2011
[The capacity region of classes of product broadcast channels](#) Y Geng, A Gohari, C Nair, Y Yu Arxiv preprint arXiv:1105.5438	[5](#)	2011
[An information inequality and evaluation of Marton's inner bound for binary input broadcast channels](#) C Nair, ZV Wang, Y Geng Information Theory Proceedings (ISIT), 2010 IEEE International Symposium on ...	[5](#)	2010
[On Marton's inner bound for two receiver broadcast channels](#) Y Geng, A Gohari, C Nair, Y Yu	[4](#)	2011

Proceedings of the ITA workshop, San Diego [An achievability scheme for the compound channel with state noncausally available at the encoder](#) C Nair, AE Gamal, YK Chia Arxiv preprint Arxiv:1004.3427	[4](#)	2010
[Abstract](#) C Nair, B Prabhakar, M Sharma	[4](#)	2008
[The randomness in randomized load balancing](#) C Nair, B Prabhakar, D Shah PROCEEDINGS OF THE ANNUAL ALLERTON CONFERENCE ON COMMUNICATION CONTROL AND ...	[4](#)	2001
[On broadcast channels with binary inputs and symmetric outputs](#) Y Geng, C Nair, S Shamai, ZV Wang Information Theory Proceedings (ISIT), 2010 IEEE International Symposium on ...	[3](#)	2010
[On 3-receiver broadcast channels with 2-degraded message sets](#) C Nair, ZV Wang Information Theory, 2009. ISIT 2009. IEEE International Symposium on, 1844-1848	[3](#)	2009
[Proof of the local REM conjecture for number partitioning](#) C Borgs, JT Chayes, S Mertens, C Nair preprint	[3](#)	2005
[The capacity region for two classes of product broadcast channels](#) Y Geng, A Gohari, C Nair, Y Yu Information Theory Proceedings (ISIT), 2011 IEEE International Symposium on ...	[2](#)	2011
[The capacity region of a class of broadcast channels with a sequence of less noisy receivers](#) ZV Wang, C Nair Information Theory Proceedings (ISIT), 2010 IEEE International Symposium on ...	[2](#)	2010
[An achievable rate region for the 2-receiver broadcast channel obtained by viewing it as an interference channel](#) C Nair Wireless Communications & Signal Processing, 2009. WCSP 2009. International ...	[2](#)	2009
[On Marton's inner bound for broadcast channels](#) A Gohari, C Nair, V Anantharam Arxiv preprint arXiv:1202.0898	[1](#)	2012
[On three-receiver more capable channels](#) C Nair, L Xia Information Theory Proceedings (ISIT), 2012 IEEE International Symposium on ...		2012
[The capacity region of the two-receiver vector Gaussian broadcast channel with private and common messages](#) Y Geng, C Nair Arxiv preprint arXiv:1202.0097		2012
[An inequality for the binary skew-symmetric broadcast channel and its implications](#) C Nair Arxiv preprint arXiv:0901.1492		2009
[Towards the distribution of the smallest matching in the Random Assignment Problem](#) C Nair		2004

Arxiv preprint cond-mat/0407087

[A new proof of Parisi's conjecture for the finite random assignment problem](#)
C Nair, B Prabhakar, M Sharma   2004
